UNCLE JOE IS SCORED FOR UNFAIR RULINGS

Insurgents Claim They Will Be Able to Curtail His Power When Congress Reconvenes.

(By Tav, Special Correspondent The Daily Sun.)

WASHINGTON, March 9.—Speaker Cannon has come to the conclusion it doesn't pay to answer critics.

Many years ago Uncle Joe adopted the policy of running Congress as he thought it ought to be run, without paying any attention to criticisms. But when he learned the publisher of Success Magazine was advertising him he wandered from his straight and narrow path and attempted to answer the criticism.

He said that it was significant that those who criticised him and his manipulation of the House rules were generally strangers to Washington, and had little idea of how things were run.

Speaker Cannon's troubles began to increase the day Congress learned of his statement. The "insurgents"—those members that have combined to fight the rules—became active at once, amassing so much strength the Speaker, probably for the first time since he has held the chairmanship, really feared for his job.

The insurgents lost their rule for a calendar Wednesday by a vote of 168 to 162. On its face the vote appears a victory for the "stand-patters," but the general opinion here in Washington is that it was won at a cost which portends defeat when, on March 25, the new Congress shall organize.

The insurgents announced after the fight was over that they will have twenty-three members on the Republican side of the next House, ready to stand with them to the finish; to refuse to caucus on rules, and to line up with the Democrats to make sweeping amendments. With four more Republican votes, plus the Democrats, the insurgents will be able to control the House. There are thirty-eight new

Republicans coming to the House, among whom it is stated positively the four needed recruits will be secured.

Mr. Cannon's contention that most of his critics as well as those who find fault with the rules, are not familiar with them, is not considered seriously here. In contrast to Speaker Cannon's intimation that correspondents of Washington papers, who hear the rules applied every day, do not criticise them, the fact is every paper in Washington has repeatedly called attention to the infamous manipulation of the rules.

"The House is not now its own master," said The Washington Times, editorially, a few days ago. "It is ruled, openly, flagrantly, cynically, by the Speaker and his rules committee. It cannot help itself.

"A surgical operation is needed to save the House from utter and hopeless disrepute with the country."

The Congressional Record shows that Speaker Cannon and his exercising of the rules in the interests of the special interests have been deplored time and again by members on the floor of the House.

Representative W. Shackleford of Missouri is one of the members familiar with the Speaker's application of the rules who told "Uncle Joe" of the representation the people were not receiving.

"At the beginning of the 56th Congress," thundered Shackleford, "I introduced a bill here providing for the abolition of the duty on wood pulp and printing paper. Some others introduced the same bill. Where is it? It is down in a pigeon hole, in the Ways and Means Committee room presided over by the genii that have

been selected by this autocrat (the speaker) to see that all who enter there leave hope behind. (Laughter.)

"This man tells us that a majority here (of this House) cannot pass a measure which he disapproves without we first expel him from office. This one man is stronger than a two-thirds majority of this House. Mr. Busby (the Speaker's confidential secretary) tells us of a bill supported by three-fourths of the members of the House which never got off the Speaker's table and died with the session.

"What a morgue is that Speaker's table. I call upon the American people to come up to that morgue and view their dead. (Applause.)

"The Speaker has overthrown the people's government, and erected upon its throne an autocracy more absolute in its despotism than exists in any monarchy in Europe.

"We have injunctions in the State of Missouri. We passed a law to regulate freight and passenger rates. Where is that law? For two years it has been held up by injunctions issued by a Federal judge who came from up in Iowa. One man from another State comes into our State and in one swoop restrains every officer of our State from enforcing a law that has been deliberately worked out by the people and representatives.

"This House is ready to limit the tyrannical power of the courts. Give us a chance to do it. Mr. chairman, if it be done, the responsibility will not be upon your shoulders. The responsibility will be upon the shoulders of us, who come here as the representatives of a free people. Give the farmers, the laboring people, who are oppressed by these improvident injunctions, some relief.

"We can pass that law in 30 minutes, Mr. chairman, but it can't be done because you, Mr. chairman, block the way. We and the people are blocked, securely blocked, by your one-arm power that rules here.

"The trusts, the special interests, are shielded behind that marble desk in front of the Speaker's chair.

"No man will arise in his place in this House and say what I have uttered is untrue."

No one arose.

PRESIDENT TAFT FA- VORS LOWER TARIFF

His Views Expressed in Inaugural Address Seemingly Overlooked by Correspondents.

WASHINGTON, March 9.—"Reduction of rates in certain schedules—advancement of few, if any."

This is the command of William Howard Taft, the new President, to the Ways and Means Committee of the House of Representatives, which has the revision of the tariff in hand. Incidentally the two quoted expressions are not only the first, but the only two authentic tips the public has yet received as giving a definite indication of what kind of tariff revision may be expected.

Strange as it may seem, these tips are from Taft's inaugural address, and their importance and significance was not only entirely overlooked by the corps of Washington newspaper correspondents, but with a very few exceptions, by even the big business men of the country. Although starved for tips on the tariff situation, nearly everyone was caught napping by President Taft.

Here is the sentence in the President's inaugural address that is now considered to be the most explanatory expression he has yet made in connection with tariff revision:

"It is thought that there has been such a change in conditions since the enactment of the Dingley act that the measure of the tariff will permit the reduction of rates in certain schedules and will require the advancement of few, if any."

The President's inaugural utterance is regarded by many as publicly serving notice on the Ways and Means Committee that few, if any, advancing of rates, will be tolerated.

The Ways and Means Committee, according to current reports, had planned to raise revenue by placing a tax on coffee, tea, and beer. It was figured out a 3-cents-a-pound tax on coffee, a 10-cent tax on tea, and a \$2 instead of \$1 internal revenue tax on beer, would bring into the national treasury about \$100,000,000, or enough, or nearly enough, to offset the annual deficit.

President Taft's implied position that he will not "stand for" but few advances, if any, may make it necessary for the Ways and Means Committee to change plans. That is, if the Ways and Means Committee wishes to carry out President Taft's desires.

The committee does not necessarily have to report the kind of a bill Mr. Taft asks for. But if the bill reported isn't satisfactory to the new executive, he will probably endeavor to have it whipped into the shape he desires on the floor. Failing in that, he may use his veto. After making it plain he does not anticipate there will be any necessity for increasing rates of duty, President Taft indicates how revenue should be raised:

"Should it be impossible to do so (raise sufficient revenues) by import duties new kinds of taxation must be adopted, and among these I recommend a graduated inheritance tax as correct in principle and as certain and easy of collection."

This method of raising revenue interferes with the plans of the leaders of the Republican party on the Ways and Means Committee, who like the tax-on-coffee, tea-and-beer idea.

The members of the Ways and Means Committee refuse to discuss the President's suggestions, or expectations, even in the most general way. The committee has kept its prospective schedules secret, and so far as is known no outsider has the least authentic information of what has taken place. However, several manufacturers and importers have endeavored to get advance information.

The committee will have its bill ready to report immediately after the special session convenes March 15. What the bill will report even the Democratic members of the committee do not know, as yet. However, the bill will be submitted to the Democrats a couple of days before it is reported, so they will have time to decide whether to submit a minority report or not.

The Democrats may be expected to report a bill of their own if the one reported by the Republicans does not provide for a decrease in the duty on some articles classified as necessities, or if it should provide for an advance in the rate of necessities. The Democrats are also said to be heartily in favor of an income tax as well as an inheritance tax, and if the Republican measure does not provide for such legislation the Democrats will bring a bill before the House that will.

Standard Oil Company Draws First Blood

CHICAGO, March 9.—Government attorneys in the retrial of the Standard Oil Company of Indiana for alleged acceptance of rebates from the Chicago and Alton railroad on shipments of oil from Whiting to East St. Louis, Ill., were told yesterday by Judge Anderson that unless they introduced further proof sustaining their contention that the oil company accepted a rebate from the Chicago and Alton railroad they might as well cease their efforts to convict.

Judge Anderson, after considerable argument from both sides, admitted tentatively tariff No. 1203 of the Chicago tariff sheet. Before admitting the documents in this way the court spoke of the "fatal discrepancy" in parts of the indictment against the Standard Oil Company.

"If the Government can furnish no further proof," said he, "in support of its contentions than the tariff sheet already introduced, it may as well stop."

death of Johnson's 3-year-old son, Arthur, by holding him on a hot stove. The accused woman said in court that the child was unruly and she had threatened to set him on the stove, but had not intended to injure him.

Aeronaut Meets Death In the Pacific Ocean

SAN PEDRO, Cal., March 9.—While hundreds watched his frantic efforts to control a great balloon, which was swiftly bearing him 4,000 feet high out over the Pacific ocean, Lester Elkins, an amateur aeronaut, 20 years old, yesterday cut loose his parachute and dropped into the waters of the outer harbor to his death.

As the stiff wind carried him out to sea boatmen hastily left the inner harbor in launches to rescue him, but their efforts were useless.

As the huge bag arose it careened and was carried rapidly out over the

water. Elkins tried desperately to guide it back over the land by swinging from the bar below, but soon the balloon was far out to sea. The parachute filled after he had fallen a short distance, but it was caught by the wind and carried still further out and fell in the ocean a mile beyond Dead Man's Island. Elkins came to California a few months ago from San Antonio, Tex., where his mother now lives. His body was not recovered.

Pensacola Navy Yard Will Not Be Closed

WASHINGTON, March 9.—The order of the Secretary of the Navy, given at the direction of President Roosevelt abolishing the navy yards at Pensacola, Fla., and New Orleans, La., was yesterday revoked by Secretary Meyer.

Secretary Meyer said that the Congressional delegations and others from Florida and Louisiana had made representations to him claiming that the original order was illegal and that while he had no doubt as to its legal

ity the case had been put before the department in such a way as to offset a reconsideration of it.

The department intends to keep close watch of the conditions at these yards and a statement has been called for of the amount of work in progress and contemplated by them. It is not proposed, for the present, at least to send any ships to those yards, the assignments already having been made.

SESSION OF BOARD
OF PUBLIC WORKSBOUNDARY STREET WAS MAIN
SUBJECT DISCUSSED.Regular Routine of Monthly Bills
Ordered Paid by the Board.
Other Matters Adjusted.

The regular meeting of the Board of Public Works was held Tuesday night at the office of Col. W. W. Hampton, with all members present.

The regular monthly bills of the board were taken up and acted upon, in most cases being ordered paid from the funds.

The principal question to be settled at the meeting was the paving of Boundary street, in the northern part of the city, which has been attracting the attention of both the council and board for the past several weeks. The matter was at first referred back to the City Council to find out just who is to have this work performed, the council or the board.

No definite action was taken on the matter owing to the fact that the council had failed to advise the board what they intended doing in the premises, and it was allowed to stand over until another meeting.

Several minor matters were taken up and disposed of, among them being West Main street. The board is now waiting on the surveyor to complete the plans for the paving when they will advertise for bids for paving with vitrified brick.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. J. W. McCollum & Co."

Restored to Health By Vinol

"I was sick, run-down and finally had to give up work. After trying a number of remedies and several physicians, I was just about ready to give up in despair. I saw Vinol advertised and decided to try it, and it has done more good for me than all other means combined. It has built me up and restored my strength until I now feel twenty years younger, and am able to attend to my work again as usual." Job Jeavons, 1036 Lind street, Wheeling, W. Va.

The reason Vinol is so successful in such cases is because it contains tonic iron and all of the strengthening blood-making and body-building elements of cod liver oil, but no oil.

Vinol is unexcelled as a strength creator for old people, delicate children, weak, run-down persons, and after sickness—and is the best known remedy for coughs, colds and bronchitis. We return your money if Vinol fails to give satisfaction.

The one-day session of the Health Institute which the ladies of the Twentieth Century Club have worked for, will be given in this city on Thursday, March 18.

This exhibition is to be given in the interest of the crusade against tuberculosis, besides a general interesting lesson along the line of health. It will prove of great interest to the public generally, and everyone should make a special endeavor to be here on this date.

The institute is held under the direction of the American Tuberculosis Exposition, and the Twentieth Century Club, having succeeded in selling a certain number of Red Cross stamps during the holidays, were entitled to have this exhibit come here for one day.

Both races are to attend the exhibition, which will doubtless be held in the Tabernacle.

The Christine Giles Recital Company appeared at the Tabernacle as a number of the High School Lyceum Course last night, and the audience was delighted with the program.

Miss Giles visited Gainesville during the Chautauqua several years since when she captivated many of our people by her splendid work. She has a rich and powerful soprano voice, and is an accomplished violinist.

Miss Evelyn Lewis was excellent in her readings. She is an elocutionist of much ability and the numbers by this lady formed a pleasing part of the program.

Mr. Batchelder, the flute soloist, was heartily applauded. He plays both the flute and piccolo, and has thoroughly mastered both. He deserved the genuine applause accorded him.

Electric Theatre.

There has been nothing in the lecture line in Gainesville that can be classed as more interesting and instructive to old and young, than the illustrated travel lectures of Mr. John Ennor, who is at the Electric Theatre this week.

Having traversed all countries and as a practical photographer taken thousands of views of all the wonderful, beautiful and interesting sights of the world and having an unlimited vocabulary, an evening spent with him is next to taking a trip yourself.

This afternoon he will give a matinee for ladies and children at 3:30 o'clock, showing them the great fire and earthquake of San Francisco, explaining everything as the pictures are shown.

Tonight he will again be on hand.

Commenced This Morning.

The large new addition, which will form the new home of Davis & Oliver's stables, will be commenced this morning by the contractor, W. A. McNally, who will have charge of the concrete foundation and pillars for the large building.

As soon as the foundation is finished the brick-layers will commence the brick work for the second story over the rear of the present building.

Pleased With East Coast.

WILCOX, March 9.—D. T. Trammell, an old and prominent citizen and merchant of Wilcox, has just returned from a three-weeks' visit to his daughter, Mrs. W. E. Bryan, of Miami. He also went to Knights Key.

Mr. Trammell says that in all of his travels in Florida and various other States, Miami surpasses any other place of its size for business. He says that almost everything is different to what it is in this part of Florida. He is very desirous of moving to the East Coast, which he expects to do in the near future.

Announced Within Short Time.

The coming summer promises to be the most active in the building line ever known in Gainesville, and judging from the large number that contemplate building homes, and the many public and private improvements that are to be made, labor, both skilled and unskilled, will be at a greater demand than ever in the history of the city.

W. O. Morris has had plans made for a handsome home to be erected on West Liberty street, just west of the Tampa & Jacksonville railway tracks. Contractors are now figuring on the plans and within a short while the building will be let.

E. A. Cooper will also build a large and commodious home in East Gainesville, near the residence of J. B. Padgett, and this building will compare favorably with the many other fine residences in this particular section.

Besides the above, there are many buildings to go up, but the owners desire that their names be kept from the public just at this time.

FOR TAX ASSESSOR.

To the Voters of the City of Gainesville:

I respectfully announce myself a candidate for City Tax Assessor for the year 1909. Having been Tax Assessor for four years, I am fully prepared to fill the office, as my record will show, the city assessment having been increased in that time from a little over \$600,000 to over \$1,000,000. NEGRO VOTERS NOMINATE CITY TICKET

LEAVE ALDERMEN OFF FOR LATER MEETING OF CLUB.

About One Hundred of Colored Race Assembled at Johnson's Hall for Purpose.

About one hundred negro voters assembled at Johnson's Hall on Monday night for the purpose of nominating a ticket to be voted for at the coming municipal election.

The meeting was called to order and the original "Bill" Nelson was selected as chairman and Columbus Berry was made secretary of the meeting, whereupon they settled down to the business of nominating the ticket to be voted on at the election in April.

Of course there has always been two factions among the colored people, and sometimes even more, but those present are pledged to support the following names:

Judge Horatio Davis, Mayor.
B. T. Arnow, Marshal.
J. Maxey Dell, Clerk and Treasurer.
T. B. Ellis, Collector.
B. R. Colson, Tax Assessor.

There is still another crowd to be heard from, with S. B. Willis and Ed Martin as the principals, but it is not yet known just who this faction will support, while there is always a great many "stragglers" among them.

The solid negro vote always carries with it some weight, but since the days of the great Republican leaders the vote has never been solid, and it has generally been the case that the candidate who "puts up the most" wins out among this class.

One thing is sure, the negro voter will be buttonholed very closely for the next several days owing to the election, but there is little interest being taken in the matter outside of the marshalship, as there is so far but little opposition for the other offices.

For Diseases of the Skin.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all druggists.

Tea Made of White Hair.

"This is white hair you are drinking," said the Chinese undersecretary.

"White hair! Nonsense! It is delicious tea."

The undersecretary laughed in his lilac brocade sleeve. "No, white hair," he insisted. "White hair—that is, in my language, for pekoe means white hair. This tea is called pekoe because its leaves were gathered so young that the white downy hairs still grew on them."—Exchange.

Good Liniment.

You will hunt a good while before you find a preparation that is equal to Chamberlain's Liniment as a cure for muscular and rheumatic pains, for the cure of sprains and soreness of the muscles. It is equally valuable for lame back and all deep-seated muscular pains. 25 and 50-cent sizes for sale by all druggists.

A Dangerous Place.

The two tramps had been particularly lucky, and, having funds in hand, they discussed plans for the night's shelter. "We can sleep under a roof if we like," said Wiggins.

"Sure we can," responded Higgins, "but some way these lodging houses make me nervous. Supposing a fire was to break out in the night?"

"You've got it right," agreed Wiggins dolefully. "It's no place for us. They'd turn the hose on us in a minute!"—Youth's Companion.

PILES CURED IN 6 TO 14 DAYS.

Facts for Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.:—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman."

"I want this letter made public to show the benefits to be derived from Lydia E. Pinkham's Vegetable Compound."—Mrs. John G. Moldan, 2115 Second St. North, Minneapolis, Minn.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

TO KILL THE DANDRUFF GERM.

The Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. A HARD STRUGGLE

Many a Gainesville Citizen Finds the Struggle Hard.

With a back constantly aching, with distressing urinary disorders, daily existence is but a struggle. No need to keep it up.

Doan's Kidney Pills will cure you. Gainesville people endorse this claim:

Mrs. Eliz. Ratherine, 201 W. McCormick street, Gainesville, Fla., says: "For years I suffered from dragging pains in my back, often so severely that I could not move. The secretions from my kidneys were also irregular in passage and caused me further annoyance. Any cold I contracted aggravated my trouble and at such times I was in misery. A friend finally advised me to try Doan's Kidney Pills and I did so. The first few doses gave me relief and when I had taken the contents of one box, the pains disappeared and my kidneys became normal. Doan's Kidney Pills cured me and I am glad to give them the credit."

Walking Under a Ladder.

A correspondent of the Boston Globe gives this explanation of the old superstition against walking under a ladder: "In former days, when hanging was done after a more primitive and simple fashion than it is today, the victim had generally to pass under the ladder which stood against the gallows for the convenience of the execution, and he passed under that ladder with the fair certainty of being immediately hanged. What the unhappy criminal could not avoid the average pedestrian avoids today, even at the expense of his polished boots, by turning into the roadway."

NEGRO BRUTE RAPES YOUNG GIRL OF TEN

PAID HER TO KEEP QUIET AND NOT TELL OF DEED.

Mother of Girl Later Learned and Had Warrant Issued Before Justice Sealey of Alachua.

Ready Jackson, a little negro girl of ten years, was raped by Robert Scott, a negro man, near Alachua one day the latter part of last week, but it was not until Monday that the mother knew of her child's condition.

Ready had accompanied the man in the woods at her mother's command to get some wood, so the girl declares, and it was while they were out that he accomplished his purpose.

She states that he kept his hand over her mouth all during the time, so she could not make an outcry, and after he had succeeded in his purpose he bought her off with money and a threat that she was not to tell anyone. On the first of the week, however, the mother of the child discovered her ailment and she at once had a warrant sworn out for the man and he was tried before Justice H. C. Sealey and committed to jail without bail to await the action of the circuit court.

The negro is a man of about 22 years of age and is an extra large negro. He was born and raised near Alachua.

HIGH-O-ME

That's the Way to Pronounce Hyomei, the Money-Back Catarrh Cure.

As doubt exists in the minds of many readers of The Sun let us say that the above is the proper pronunciation of America's most famous catarrh cure.

J. W. McCollum & Co. are the agents for Hyomei in Gainesville and they will sell you jars of HIGH-O-ME and Hyomei, and full instructions for use, for only \$1.00.

And if it fails to cure acute or chronic catarrh, asthma, bronchitis, croup, hay fever or coughs and colds, they will give you your money back. The person who suffers from catarrh after such an offer as that, must like to snuffle, spit and wheeze, and be generally disgusting.

Read what Mr. Lowe, a respected citizen of Allegan, Mich., says of Hyomei.

"I have used Hyomei for a case of nasal catarrh which had bothered me for a long time. I can say that Hyomei killed the germs of the disease and gave me the much sought and needed relief. From this experience I know Hyomei to be a reliable remedy, and I give it the praise and recommendation, that it deserves."—G. F. Lowe, R. F. D. No. 7, Allegan, Mich., September 19, 1908.

Mrs. W. W. Gardner, of Paducah, Ky., tried Cardui and writes: "I think Cardui is just grand. I have been using it for eleven years. I am 48 years old and feel like a different woman, since I have been taking it. I used to suffer from bearing down pains, nervousness and sleeplessness, but now the pains are all gone and I sleep good. I highly recommend Cardui for young and old." Try it.

THE USES OF WIREGRASS.

Bradford county is one of the few sections of Florida where the wild land is thickly covered with wiregrass. This grass grows all over the State, but it is only on stiff, clammy loam, underlaid with clay, where the growth is heavy enough to allow it to be cut with a mower. This grass is not propagated from seeds but from root stalks, and where it is once exterminated it does not reappear again. While young and tender it furnishes good grazing. In the western part of the county, since the great storm in 1896, it is fast giving place to the valueless broomsage to the deterioration of the pasturage. In the eastern part the wiregrass still holds its own.

Since the depletion of the large herds of cattle that roamed here in the past, a new use for the grass has been found and it is universally used for the mulching of strawberry beds. Many men contract to cut grass for this purpose and when it is spread over the beds it preserves the moisture so essential to the strawberry plant, keeps the soil at an equal temperature day and night and keeps the berries clean. The sandy particles in the soil are very fine and light and are whipped up by the pelting rain drops, covering the lower parts of all plants, but when the soil has a covering of this grass the force of the rain is broken and the berries are cleansed instead of being covered with dirt. On account of scarcity of wiregrass elsewhere very few berries are mulched outside of Bradford county, and for that reason do not look so clean and bright as our berries when they arrive in the market and do not bring such good prices. Furthermore, the mulching keeps the ground cool and this gives the berries a firm texture, allowing them to stand shipment well.

A proof of the natural fertility of our soils is that where the wiregrass has been cut year after year for mulching it does not deteriorate but keeps growing with the same vigor. Since the grass has proved of so much value it is being better protected from fire than formerly.—Starke Telegraph.

CURRENT COMMENT.

The Norfolk Virginian-Pilot says: "The bank at Monte Carlo has just paid the usual dividend of 30 per cent. to stockholders. Stock in that institution pays almost as well as that of the tariff-protected trusts in this country, and the money is made in the same way. Only the robbery is direct in one instance and indirect in the other."

The Philadelphia Record says: "Let us remember that the transition from one head of the State to another, without death, or insurrection, or conspiracy, is one of most notable political achievements of the human race. The American people have worked out a political system that is the freest in the world and possesses all the necessary functions of the most centralized government with an hereditary head surrounded by privileged classes."

The San Francisco Chronicle says: "Japanese laborers in the Hawaiian Islands are talking about strike, and a newspaper published at Hilo backs them up and advises them, if their demands are not complied with, to apply to their government for warships to assist in enforcing them. Of course the editor is irresponsible, but that will not diminish the chances of his advice proving mischievous, for his readers are an impressionable lot, who fancy that, backed by their country, they can demand and do almost anything they please."

The Hartford Courant says: "Accepting forecast for fact, an old-fashioned party paper here and there sets up a grumble that Taft is going to have 'two Democrats'—meaning Franklin MacVeagh and Jacob M. Dickinson—in his cabinet. The Democracy of

The same partisan grumble was heard when President Hayes made Carl Schurz (who had opposed Grant in the Senate and the national campaign of 1872) his Secretary of the Interior, and when President Cleveland made Walter Q. No community can flourish unless it has its proper quota of positive men who are wisely affirmative and who cheer and energize by their speech and action. They are a bracing tonic to the business and social atmosphere. The negative man, on the contrary, depresses, and so far as his influence goes he serves to check the spirit of enterprise and thereby works against the progress of the place in which he dwells.

If some people would use about one-half of the time they take in talking about the heaven beyond, in helping this world to become more heavenly, it would be time well spent.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

ECZEMA FROM HEAD TO FOOT

For Six Months his Suffering was Beyond Words—One Mass of Irritation and Itching was Dreadful—Slept Only from Sheer Exhaustion—Almost Out of His Mind—After 24 Hours' Use of Cuticura Slept Like an Infant and Then was

CURED IN ONE MONTH BY CUTICURA REMEDIES

"I am seventy-seven years old and one day, some years ago, I fell from a step-ladder, bruising my heel. In a few days I could not walk. I called in a doctor and inside of a week erysipelas set in. The doctor had not cured me of that when I was taken with eczema from head to foot. I was sick for six months and what I suffered tongue could not tell. I could not sleep day or night because of that dreadful itching; when I did sleep it was from sheer exhaustion. I was one mass of irritation: it was even in my scalp. The doctor's medicine seemed to make me worse and I was almost out of my mind. I read of Cuticura and sent my wife to the druggist, who was a member of my lodge of Odd Fellows, for a set of the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. I used them persistently for twenty-four hours. That night I slept like an infant, the first solid night's sleep I had had for six months. I was not afraid to use plenty of Cuticura Ointment and Cuticura Soap with hot water and in a week's time I was able to put on my clothes again. In a month I was cured. From that day to this I cannot praise the Cuticura Remedies too highly. I may add that I have a very heavy head of hair which I owe to Cuticura. W. Harrison Smith, R.F.D. 2, Mt. Kisco, N. Y., Feb. 3, '08."

A single set of the Cuticura Remedies is often sufficient for the treatment of the most torturing, disfiguring, itching, burning and scaly humors, eczemas, rashes and irritations, with loss of hair, from infancy to age, when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth. Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Chocolate Coated Pills (25c), are sold throughout the world.
